DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 10-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

More specifically, in claims 10-15 the core member comprising "a fiber made of a soft magnetic material having permeability of 1000 or more and a core thread" is indefinite because the structural relationship of the fiber and core thread is not clear. This lack of clarity renders the core member per se vague and indefinite and renders it difficult to determine the metes and bounds for which patent protection is being sought.

Allowable Subject Matter

3. Claims 22-27 are allowed.
4. Claims 16-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 10-15 have been considered but are moot in view of the new ground(s) of rejection.
